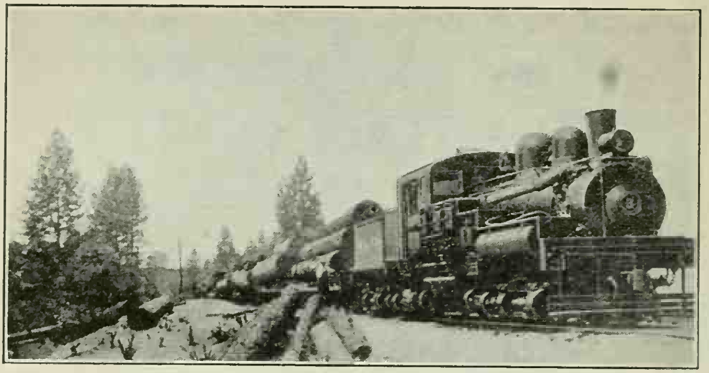
New Features of the 1930

DIRECTORY OF THE LUMBER INDUSTRY

IN offering the 1930 Directory of the Lumber Industry of the Pacific Greater West the publishers desire to call attention to a number of important changes in the arrangement of subject matter and contents, which it is felt, will prove a decided improvement over previous editions. The alphabetical arrangement of the firms by states and provinces has been retained as offering the greatest number of advantages in a reference work of this character. It will be noted that the complete postal address is carried immediately following each listing, thereby reducing to a minimum the possibility of clerical errors in using the book as a mailing list.

Another feature of the new directory is the uniform arrangement of subheadings under the main listings. For example, the user of the book can see at a glance any special feature of an operation he may care to investigate and find it in the identical place in each listing.

As in former years, the publishers make no claims that every firm engaged in the many branches of the lumber industry is included in this book, but the new directory is offered with the statement that it constitutes the largest collection of authentic data of its kind ever compiled, covering fully 95 per cent of the lumber and forest products output of the territory embraced.



APPLICATION of Elesco superheaters and Elesco feed water heaters to locomotives, steam shovels, logging skidders, donkey engines and mill boilers, reduces fuel and water consumption at least 25 per cent, or, with the original amount of fuel, increases their output or capacity a corresponding amount.

Take your choice!

Superheating the steam increases both volume and heat content, gives more work from every pound of steam and speeds up operations.

Feed water heaters reclaim heat in exhaust steam and return it to the boiler through the medium of feed water, thereby reducing the amount of fuel burned on the grate and increasing boiler capacity.

Have you considered what such savings and improved operation will mean to you?

WASHINGTON SAWMILLS

A. & U. LUMBER CO., Enumclaw, Wash.

Sales Office: Enumclaw.
Shipments: C. M. & St. P., N. P.; cargo, retail.
Product: Red cedar, Douglas yellow and red fir, hemlock; common, dimension, timbers, tank stock, car material, Jap squares, ties.
Sawmill Capacity: Lumber 45 M, planing mill 45 M, yard 3000 M.
Sawmill Equipment: Circular headrig, edger, 2 hand trimmers, refuse burner, timber sizer, 2 horses, 8 motor trucks.
Planing Mill: Surfacer, rip saw.
Power: Steam-electric.
Personnel: President and manager, Frank Inglis; traffic manager and purchasing agent, C. O. Prentice; sawmill and yard superintendent, Frank Inglis; head filer and master mechanic, Frank Vollmer.

ABERDEEN LUMBER & SHINGLE CO., Aberdeen, Wash.

Sales Office: Aberdeen.
Shipments: N. P., C. M. & St. P., U. P.; cargo.
Product: Douglas yellow fir, hemlock; flooring, siding, lath, shop, Jap squares
Sawmill Capacity: Lumber 175 M, planing mill 25 M, kilns 25 M, lath 35 M, sheds 1000 M, yard 2000 M.
Sawmill Equipment: Circular headrig, pony band, resaw, edger, trimmer, lath mill, 6 dry kilns, 4 carriers, 2 horses, bridge crane.
Planing Mill: Surfacer, 2 matchers.
Power: Steam.
Personnel: President, B. B. Averill; general manager, C. A. Pitchford; sales manager, Claude Leitch; traffic manager, L. F. Bickenhauer; sawmill superintendent, W. W. Caldwell; yard superintendent, J. F. Collier; head filer, W. Oldaker; master mechanic, H. Burns.

AIRCRAFT PLYWOOD CORPORATION, 1319 West Nickerson St., Seattle, Wash.

Sales Office: Seattle.
Shipments: N. P., G. N., C. M. & St. P., U. P.; cargo.
Product: Sitka spruce, Douglas fir.
Sawmill Capacity: Lumber 125 M, planing mill 40 M (8 hrs.), kiln 40 M, moulding 3 cars mo., lath 20 to 30 M.
Sawmill Equipment: Band headrig, 2 pony bands, edger, trimmer, lath mill, hog, 4 kilns, refuse burner, timber sizer, 2 jitneys, bridge crane, electric crane, 3 motor trucks, automatic sprinkler.
Planing Mill: Surfacer, 2 matchers, rip saw, moulder.
Power: Steam-electric.
Personnel: Chairman of board, A. H. Gould; president, J. L. Peters; vice-president, J. C. Sams.

ALDER & MAPLE PRODUCTS CO., Tacoma, Wash.

Sales Office: Tacoma, Wash., Box 1556.
Shipping Point: Auburn and Tacoma; N. P., G. N., C. M. & St. P., U. P., S. P.; cargo.
Product: Alder, ash, maple; common, dimension.
Sawmill Capacity: Lumber 25 M, sheds 500 M, yard 2000 M.
Sawmill Equipment: Two circular headrigs, gang, hog.
Power: Electric.
Personnel: President and general manager, Edwin Gregory; sales and traffic manager, P. H. Physeck; sawmill superintendent, W. J. Carr.

ALDER CREEK LUMBER CO., Shelton, Wash.

Sales Office: Carlson-Hill Lumber Co., Tacoma, Wash.
Shipments: Northern Pacific.
Product: Douglas fir, hemlock.
Sawmill Capacity: 50 M.
Sawmill Equipment: Circular headrig.
Power: Steam.
Personnel: Sales manager, L. P. Hill.

AMBOY LUMBER CO., Amboy, Wash.

Sales Office: Amboy.
Shipments: Northern Pacific.
Product: Douglas fir.
Sawmill Capacity: 14 M.
Sawmill Equipment: Circular headrig, edger.
Power: Steam.
Personnel: Manager, John N. Blevin.

AMERICAN MILL CO. (Mill A), Aberdeen, Wash.

Sales Office: Aberdeen, Wash. Agents, Sudden & Christenson, San Francisco, Cal.
Shipments: N. P., O.-W. R. & N., U. P., C. M. & St. P.; retail.
Product: Sitka spruce; shop; cut 100% spruce, all grades.
Sawmill Capacity: Lumber 150 M, planing mill 50 M, kiln 25 M, lath 30 M.
Sawmill Equipment: Circular headrig, pony band, resaw, edger, trimmer, lath mill, hog, kiln, refuse burner, timber sizer, carriers, horses.
Planing Mill: Surfacer.
Power: Steam.
Personnel: President, A. E. Hulbert; general and sales manager, F. H. Hulbert; sawmill superintendent, Pete Erickson; yard superintendent, Hans Peterson.

AMERICAN MILL CO. (Mill B), Aberdeen, Wash.

Sales Office: Aberdeen. Agents, Sudden & Christenson, San Francisco, Cal.

Shipments: N. P., O.-W. R. & N., U. P. C. M. & St. P.
Product: Douglas yellow fir, Idaho white pine.
Sawmill Capacity: Lumber 160 M, planing mill 75 M, lath 25 M, sheds 2000 M, yard 5000 M.
Sawmill Equipment: Band headrig, resaw, edger, trimmer, lath mill, refuse burner, timber sizer, carriers, automatic sprinkler.
Planing Mill: Surfacer, matcher.
Power: Steam.
Personnel: President and general manager, A. E. Hulbert; sales manager, G. T. Hulbert; sawmill superintendent, H. Billings; yard superintendent, G. T. Hulbert.

AMES (H. T.) LUMBER CO., Kelso, Wash., Box 158.

Sales Office: Kelso.
Shipments: G. N., N. P., U. P.; cargo, retail.
Product: Douglas red fir; common, dimension, timbers.
Sawmill Capacity: Lumber 20 M, planing mill 15 M, yard 800 M.
Sawmill Equipment: Circular headrig, edger, trimmer, 2 motor trucks, sizer.
Power: Steam.
Personnel: President, H. T. Ames; sales manager and sawmill superintendent, F. C. Maloney; yard superintendent, C. D. Dietderich.

ANACORTES LUMBER & BOX CO., Anacortes, Wash.

Sales Office: Anacortes, Wash. Agents: 902 Lumber Exchange, Minneapolis, Minn.; 112 Market St., San Francisco, Cal.
Shipments: Great Northern; cargo, retail.
Product: Hemlock, Sitka spruce; box material, crating material, shop, ladder stock, box shook, car material, Jap squares, pulpwood.
Sawmill Capacity: Lumber 150 M, planing mill 150 M, kiln 50 M, shook 80 M, sheds 1000 M, yard 20,000 M.
Sawmill Equipment: Band headrig, gang, resaw, edger, trimmer, lath mill, hog, kiln, refuse burner, 6 jitneys.
Planing Mill: Surfacer, 5 matchers, resaw, rip saw, moulder.
Power: Steam-electric.
Personnel: President, J. D. McCormack; general and sales manager, E. C. Kaune; traffic manager and purchasing agent, F. D. McCormack; sawmill superintendent, Wm. Raddatz; yard superintendent, J. H. Souliere; box factory superintendent, Chas. Deane; kiln superintendent, Chas. Crawford; head filer, Seymour Newell; master mechanic, H. J. Perchman.

ANDERSON & MIDDLETON LUMBER CO., Aberdeen, Wash.

Sales Office: Aberdeen.
Shipments: N. P., O.-W. R. & N., C. M. & St. P.; cargo, retail.
Product: Red cedar, Douglas yellow and red fir, hemlock, Sitka spruce; finish, moulding, common, dimension, flooring, siding, timbers, lath, tank stock, crating material, shop, ladder stock, frame material, cut casing and base, car material, R.G. clears, K.D. clears, Jap squares.
Sawmill Capacity: Lumber 250 M, planing mill 100 M (8 hrs.), kiln 100 M (8 hrs.), moulding 2 cars mo., lath 25 M, sheds 3000 M, yard 10,000 M.
Sawmill Equipment: Band headrig, pony band, gang, 2 resaws, 2 edgers, 2 trimmers, lath mill, 3 hogs, 10 kilns, refuse burner, timber sizer, 7 carriers, 6 horses, 2 electric cranes, 2 motor trucks, automatic sprinkler.
Planing Mill: Surfacer, 4 matchers, resaw, rip saw, 2 moulders.
Power: Steam-electric.

AUSTIN, C. O., Gig Harbor, Wash.

Sales Office: Gig Harbor.
Shipments: No railroad; cargo, retail.
Product: Red cedar, Douglas yellow and red fir, hemlock, white fir; yard, moulding, common, dimension, flooring, siding, timbers, shingles, box material, crating material, box shook, car material, R.G. clears, K.D. clears, Jap squares, ties.
Sawmill Capacity: Lumber 15 M, planing mill, 15 M, shook 6 M, shingles 25 M.
Sawmill Equipment: Circular headrig, edger, trimmer, shingle machine, dry kiln.
Planing Mill: Matcher, resaw, rip saw, moulder.
Power: Steam.
Personnel: President, C. O. Austin; superintendent, Erick Erickson.

BABARE MANUFACTURING CO., Tacoma, Wash.

Sales Office: Tacoma.
Shipments: N. P., G. N., U. P.
Product: Douglas fir, spruce, alder, oak.
Sawmill Capacity: 30 M.
Sawmill Equipment: Circular headrig, edger, trimmer, sizer, hog.
Power: Electric.
Personnel: Manager, George Babare; superintendent, Wm. Beewald.

BAETON LUMBER CO., Blaine, Wash.

Sales Office: Blaine.
Shipments: Great Northern; retail.
Product: Douglas yellow and red fir; finish, moulding, common, dimension, timbers, flooring, tank stock, car material, ties, crossarms.
Sawmill Capacity: Lumber 25 M, planing mill 25 M (8 hrs.).
Sawmill Equipment: Circular headrig, resaw, edger, 2 trimmers, jitney, motor truck.
Planing Mill: Surfacer, matcher.
Power: Steam.
Personnel: President, F. D. Fobes; general manager, H. J. Baeton; yard superintendent, Ralph Creasy.

BAY CITY LUMBER CO., Aberdeen, Wash.

Sales Office: Aberdeen.

Shipments: C. M. & St. P., O.-W. R. & N., N. P.; cargo, retail.

Product: Douglas yellow fir, hemlock; finish, common, dimension, flooring, siding, timbers, lath, shop, car material, R.G. clears, K.D. clears, Jap squares.

Sawmill Capacity: Lumber 225 M, planing mill 250 M, kiln 150 M, lath 35 M, sheds 6000 M, yard 15,000 M.

Sawmill Equipment: Band headrig, pony band, gang, resaw, edger, trimmer, lath mill, 2 hogs, kiln, refuse burner, timber sizer, 6 carriers, 6 horses, electric crane, automatic sprinkler.

Power: Steam-electric.

Personnel: President, general and sales manager, S. M. Anderson; purchasing agent and sawmill superintendent, John Kersh; yard superintendent, R. C. Lane; kiln superintendent, Geo. Wallace; head filer, Wm. Savidge; master mechanic, Fred Jevy.

BECK & LARSON, Locke, Wash.

Sales Office: Locke.

Shipments: Northern Pacific.

Product: Pondosa pine, fir, larch.

Sawmill Capacity: 15 M.

Sawmill Equipment: Circular headrig.

Power: Steam.

Personnel: Manager, M. E. Beck; superintendent, L. A. Larson.

BELL BROS. LUMBER CO., White Salmon, Wash.

Sales Office: White Salmon.

Shipments: Rail connection with S. P. & S.; retail.

Product: Pondosa pine, Douglas fir, dimension, common, clears.

Sawmill Capacity: Lumber 18 M.

Sawmill Equipment: Circular headrig.

Power: Steam.

Personnel: Manager, J. B. Bell; superintendent, E. T. Bell.

BELLPACK LUMBER & TIMBER CO., Van Zandt, Wash.

Sales Office: Van Zandt.

Shipments: Northern Pacific.

Product: Fir, cedar, hemlock; clears, common, dimension.

Sawmill Capacity: Lumber 45 M.

Sawmill Equipment: Circular headrig, edger, trimmer, kilns.

Planing Mill: Surfacer.

Power: Steam.

Personnel: Manager, J. H. Puckett; superintendent, A. B. Pennycock.

BELSHEIM, A. G. Guler, Wash.

Sales Office: Guler.

Shipping Point: Underwood, Wash.; S. P. & S.; retail.

Product: Douglas red fir; dimension, timbers, car material.

Sawmill Capacity: 5 M.

Sawmill Equipment: Circular headrig, edger, motor truck.

Power: Steam.

Personnel: President, A. G. Belsheim; sawmill superintendent, Wm. B. Robbins.

BETCHARD, FRANK, Roy, Wash.

Sales Office: Roy.

Shipments: G. N., N. P.; retail.

Product: Red cedar, Douglas red fir, hemlock; shingles.

Sawmill Capacity: Lumber 25 M, planing mill 20 M.

Sawmill Equipment: Circular headrig, edger, shingle machine.

Power: Steam.

Personnel: General manager, Frank Betchard; sawmill superintendent, Fred Hicks.

BILES-COLEMAN LUMBER CO., Omak, Wash.

Sales Office: Omak; agents, 8409 Talbot Place, Kew Gardens, New York.

Shipments: Great Northern; retail.

Products: Larch, pondosa pine; finish, moulding, box material, cut door stock, cut sash stock, frame material, K.D. frames, cut casing and base, box shook, Linderman casket shook, cut wrapped trim.

Sawmill Capacity: Lumber 100 M, planing mill 200 M, kiln 200 M, moulding 10 cars mo., shook 75 M.

Sawmill Equipment: Band headrig, gang, edger, trimmer, hog, 10 kilns, 3 motor trucks, automatic sprinkler.

Planing Mill: Surfacer, matcher, 2 resaws, 5 moulders, 4 Lindermans.

Power: Steam-electric.

Personnel: President, J. C. Biles; sales manager, A. M. Aston; traffic manager, F. J. Williams; sawmill superintendent, A. B. Coleman; yard superintendent, H. A. Harding; box factory superintendent, Roy Webster; kiln superintendent, Robert Smith; filer, P. R. Dennis; master mechanic, O. S. Brender.

BISHOP (E. K.) LUMBER CO., Aberdeen, Wash.

Sales Office: Aberdeen.

Shipments: N. P., C. M. & St. P., O.-W. R. & N.; cargo.

Product: Sitka spruce; finish, common, lath, box material, crating material, shop, ladder stock, airplane lumber.

Sawmill Capacity: Lumber 60 M.

Sawmill Equipment: Circular headrig, gang, edger, trimmer, lath mill.

Power: Steam-electric.

Personnel: President and manager, E. K. Bishop; sawmill superintendent, B. R. Stewart.

BISSELL LUMBER CO., Seattle, Wash., P. O. Box 72

Sales Office: Seattle.

Shipments: O.-W. R. & N., C. M. & St. P., N. P., G. N.; cargo.

Product: Douglas yellow fir; common, dimension, timbers, tank stock, shop, ladder stock, R.G. clears, Jap squares, crossarms, ship decking, thick and thin green clears, all old-growth Douglas fir.

Sales Office: Ridgefield.
Shipments: U. P., N. P., G. N.; cargo.
Product: Red cedar; finish, moulding, common, dimension, flooring, siding, timbers, lath, shingles, pattern stock, tank stock, shop, cut door stock, cut sash stock, frame material, R.G. clears, K.D. clears, ties, "Surety Bond" Brand "Protektwrapt" (end-protected) cedar bevel and bungalow siding.
Sawmill Capacity: Lumber 50 M, planing mill 25 M, kiln 30 M, shingles 400 M.
Sawmill Epuipment: Band headrig, pony band, resaw, edger, 6 trimmers, lath mill, 11 shingle machines, 4 hogs, 3 kilns, refuse burner, automatic sprinkler.
Power: Steam-electric.
Personnel: President and manager, J. A Bratlie.

BRATNOBER-BATY LUMBER CO., Monohan, Wash.

Sales Office: White Bldg., Seattle.
Shipments: U. P., G. N., N. P., C. M. St. P. & P., P. C.
Product: Fir, spruce, hemlock; finish, common, dimension.
Sawmill Capacity: Lumber 40 M.
Sawmill Equipment: Circular headrig, edger, trimmer, kilns.
Planing Mill: Surfacer, matcher.

Power: Steam

Personnel: Sales manager, J. E. Bratnober; superintendent, G. C. Baty.

BREW MANUFACTURING CO.,
Puyallup, Wash.

Sales Office: Puyallup.

Shipments: N. P., G. N.; cargo, retail.

Product: Red cedar, Douglas yellow fir, hemlock, Sitka spruce; box material, box shook, R.G. clears, Jap squares, veneers.

Sawmill Capacity: Lumber 60 M, Shook 25 M.

Sawmill Equipment: Band headrig, edger, jitney, 5 motor trucks.

Planing Mill: Surfacer, matcher, resaw.

Power: Steam-electric.

Personnel: President and general manager, T. W. Brew; sawmill superintendent, Rex Dunlap; box factory superintendent, Fred Moore; veneer plant superintendent, Ed Ryan; master mechanic, Ed Wolf.

BRISTOL HARDWOOD CO.,
6759 E. Marginal Way, Seattle

Sales Office: Seattle.

Shipments: U. P., G. N., N. P.

Product: Maple, alder, oak.

Sawmill Capacity: 10 M.

Sawmill Equipment: Circular headrig.

Power: Electric.

Personnel: Manager, William Bristol; superintendent, E. G. Williams.

BROCK BROS.,
Pe Ell, Wash.

Sales Office: Pe Ell.

Shipments: Northern Pacific.

Product: Douglas fir.

Sawmill Capacity: 20 M.

Sawmill Equipment: Circular headrig.

Power: Steam.

BROUGHTON LUMBER CO.,
Hood, Wash.

Sales Office: 503 Railway Exchange Bldg., Portland, Ore.

Shipping Point: Hood; S. P. & S.

Product: Red cedar, Douglas yellow and red fir, hemlock, pondosa pine; finish, common, dimension, flooring, siding, timbers, ties.

Sawmill Capacity: Lumber 60 M, planing mill 60 M.

Sawmill Equipment: Circular headrig, edger, trimmer.

Planing Mill: Surfacer, matcher.

Power: Steam-electric.

Personnel: President and manager, H. J. Broughton; sawmill superintendent, D. M. Stevenson; mill foreman, A. Lemire; planing mill foreman, A. Foley.

BRYANT LUMBER CO.,
Seattle, Wash.

Sales Office: Seattle.

Shipments: N. P., G. N., C. M. St. P. & P., U. P.; cargo, retail.

Product: Douglas yellow and red fir; finish, moulding, common, dimension, siding, flooring, timbers, lath, pattern stock, match stock, crating material, K.D. frames, cut casing and base, car material, R.G. clears, K.D. clears, Jap squares.

Sawmill Capacity: Lumber 150 M, lath 28 M.

Sawmill Equipment: Band headrig, 2 resaws, edger, trimmer, lath mill, 4 kilns, refuse burner, timber sizer, 2 carriers, 3 bridge cranes, 5 motor trucks, automatic sprinkler.

THE TIMBERMAN Is Invaluable
As Reference Guide Says
California Sawmill Operator

In my judgment THE TIMBERMAN is the most practical lumber journal published. I read and file each issue. Its directory of advertisers furnishes a ready and valuable reference guide. One can find every branch of the lumber industry thoroughly covered.

J. A. RANKIN,
General Manager Hammond Lumber Co.,
Samoa, Cal.

The Mechanical Features of
THE TIMBERMAN Appreciated

I read each issue of THE TIMBERMAN with much satisfaction. The journal contains more practical mechanical information than any other lumber journal published.

J. B. SHOBERT,
Sawmill Designer, San Francisco, Cal.

Every Company for Which I Have Ever Worked Takes THE TIMBERMAN

Every company for which I have ever worked has subscribed for THE TIMBERMAN. Oftentimes when an important man was required I looked up THE TIMBERMAN and could always get in touch with good men. Used machinery of every character is generally found in THE TIMBERMAN'S classified advertising columns.

Shipping Point: Davao.
Product: Philippine hardwoods.
Sawmill Capacity: 2 M.
Sawmill Equipment: Circular headrig.
Power: Steam.

HERCULES LUMBER CO.,
817 Globo de Oro, Manila, P. I.
Shipping Point: Lumarao, Zamboanga.
Product: Philippine hardwoods.
Sawmill Cacapity: 20 M.

Sawmill Engineer Finds THE TIMBERMAN Helpful

I look forward each month with much pleasure to the coming of THE TIMBERMAN. It contains such a lot of practical information that every sawmill engineer likes to read. No other lumber publication "gets under the skin" of the men who look after the mechanical operation of the sawmill like THE TIMBERMAN. I read the advertisements and get new ideas. All the men around the Sugar Pine Lumber Co.'s operation read THE TIMBERMAN.

N. M. HANSEN,
Chief Engineer, Sugar Pine Lumber Co.,
Pinedale, California

Sawmill Equipment: Circular headrig.
Power: Steam.

HIMAMAYLAN LUMBER CO.,
Himamaylan, Negros Occidentals, P. I.

Shipping Point: Himamaylan.
Product: Philippine hardwoods.

Power: Steam.

THE TIMBERMAN Panoramas the Lumber Industry for Retail Lumbermen

I find each issue of THE TIMBERMAN interesting and helpful. It gives the average retailer a better and broader grasp of the entire lumber industry than any other source of information of which I am advised.

M. H. STANLEY,
1336 Channing Way, Berkeley, Cal.

PART II

LOGGING OPERATIONS

Equipment register and guide to the principal logging operations of Washington, Oregon, California, Idaho, Montana, Nevada, Arizona, New Mexico, Alaska, Colorado, South Dakota, Philippine Islands and Province of British Columbia, including detailed information on all logging railroads in the Pacific Greater West.

Compiled and published by
THE TIMBERMAN
Spalding Bldg., Portland, Ore.

Today's Equipment for Today's Logging

Today's required economies in logging cannot be met with yesterday's equipment. Washington Diesel Logging Engines are strictly today's engines, built for high production and getting it with an economy until recently believed impossible.

We will be glad to send you cost figures kept by some operators of Washington Diesel Logging Engines

WESTERN LUMBER COMPANY
10

Six-coupled Double-ender Tank Locomotive
Built for the Western Lumber Co.

BALDWIN LOGGERS

Dependable Power for General Duty

Baldwin six-coupled locomotives give thorough satisfaction in logging service on lines where uneven tracks, sharp curves and heavy grades are prevalent. This design has no superior for all-round duty.

Our shops are equipped to rebuild logging locomotives or design new motive power, and make prompt deliveries of duplicate and spare parts.

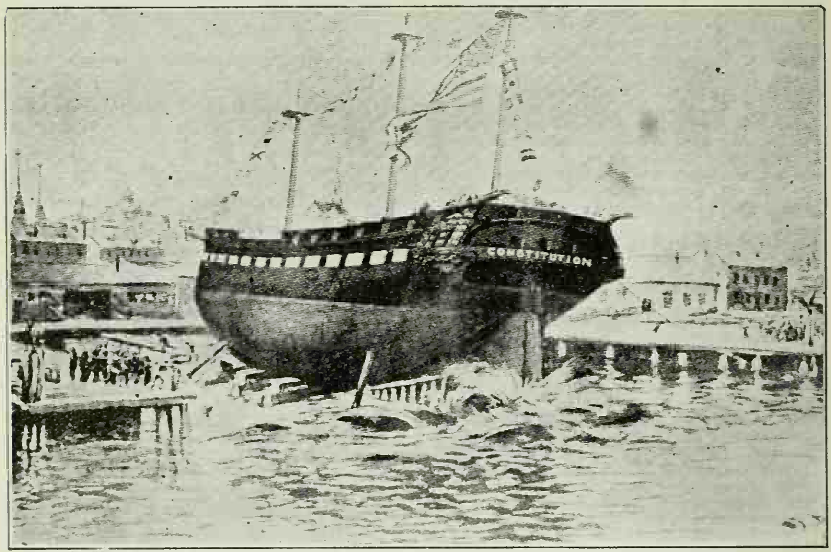
Logging Railroad: 2 miles s.g., 45-lb. rail, gas fuel, 2 flat cars.
Personnel: President and manager, M. O. Hynes.



THE PERRY PICTURES

Launching of the Constitution, October 21, 1797

Like the Wood in "OLD IRONSIDES"—UNION Lubricants are "*Time Tested*"

IN 1797 the Americans launched the third ship of their new navy—the frigate "Constitution."

It saw service in the French war. It bombarded the coast of Tripoli and subdued the Barbary pirates. In 1812 it won a series of decisive victories over British cruisers. So well did its wooden structure withstand enemy shellfire that it was affectionately christened "Old Ironsides."

After 84 years of active service, it was condemned in 1905 to be sunk in target practice. A wave of public indignation followed. So Congress appropriated $100,000 for reconstruction.

"Old Ironsides" endures today—an example of wood's ability to stand the test of time.

Union lubricants are like "Old Ironsides." They have won many battles with friction. Constant use by big Western lumber firms has proved their endurance. They are "time tested."

This Service Free!

Let a Union Lebrication engineer check with you on your lubrication problems. These trained men are thoroughly versed in all phases of lumber operation. They are often able to cut lubrication costs from 10% to 30% and at the same time increase efficiency.

A phone call to the nearest Union Oil distributing station will bring you this FREE service. Phone today.

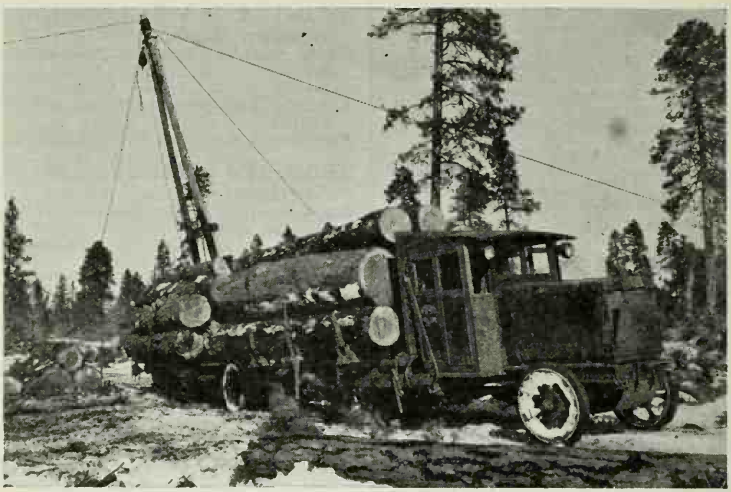
Personnel: President, Clyde Walton; manager, J. E. Frost; superintendent, E. F. Frost; purchasing agent, R. F. Frost; foreman, G. Swanson.



Logging Delays Are Costly
Insure Yourself Against Them

Time means profit when the log hauling season is on. Every delay means dollars lost. You can insure yourself against these costly delays with the Linn Logging Tractor and the Linn-Wheeler Logging Trailer. This logging equipment has patented flexible traction that permits hauling big loads on soft ground, through deep snow or over rough, rocky roads.

Linn maintenance costs are low. *Tracks are interchangeable on both tractor and trailer.* Every part is strongly built of high grade material. The sturdy manganese traction members are practically indestructible. The Linn Logging Tractor's carrying capacity is 3000 log feet. The Linn-Wheeler Trailer will carry 4000 log feet.

It will pay you to learn more about Linn features. Send for performance pictures and complete information about the Linn Logging Tractor and the Linn-Wheeler Trailer. It will help you solve your future logging problems. Write or wire today.

A 2-6-6-2 TYPE LOGGER WITH SINGLE EXPANSION CYLINDERS. WEIGHT IN WORKING ORDER, 263,250 POUNDS

Dividend Earning Locomotives *for the* Logging Service

IN the logging industry where tracks are frequently uneven and where grades are heavy, Baldwin articulated locomotives, with either single expansion or compound cylinders, are proving economical and efficient in the heaviest class of service.

Loggers similar to the one illustrated earn dividends. We will co-operate with you in designing power to economically meet your operating conditions.

To Be Without THE TIMBERMAN
Is to Be Isolated

Enclosed please find money order in amount of $3 for my subscription to THE TIMBERMAN. I would just as soon be isolated as to do without THE TIMBERMAN. It is as convenient and necessary as the handbook to an accountant.

Master Mechanic Finds Mechanical Section of THE TIMBERMAN Valuable and Inspiring

The mechanical department of THE TIMBERMAN conducted by Mr. R. T. Earle, always contains a lot of very practical ideas which are helpful in every machine shop. Mr. Earle is a capable mechanic of long experience in the railroad, logging and sawmill business, hence his opinions, based on ripened experience, are worth while reading.

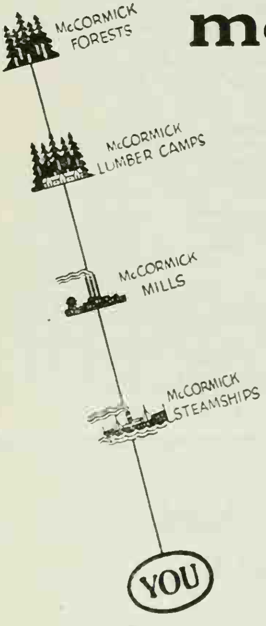
What McCormick's straight-line service means to YOU



McCormick is equipped to meet your every requirement within the range of West Coast woods—Douglas Fir, Cedar, Spruce, Hemlock.

McCormick's is an all-inclusive service —our own stands of the finest timber in the Pacific Northwest—our own modern logging camps, our own mills and treating plant, our fleet of foreign and coastwise vessels, our gridirons connecting with all transcontinental railroads for fast shipments to all points in the United States.

Every step is McCormick controlled. That's why McCormick lumber stands for dependable quality, grades, deliveries, and has for more than a quarter of a century.

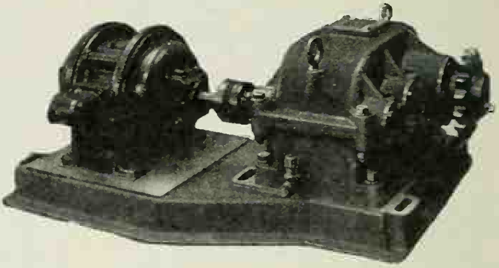
Personnel: Manager, N. Nussbaumer.

Mechanical Engineers Use THE TIMBERMAN as a Reference Guide

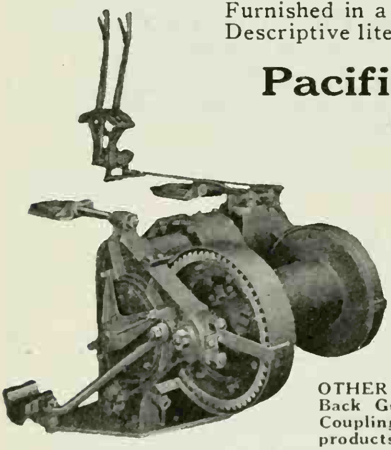
I have sometimes wondered if the publishers of THE TIMBERMAN appreciate the value of its advertising pages as a ready reference for engineers. I use it regularly in making estimates for various types of machinery required in the lumber industry. It must be remembered that engineers appreciate quite as much, or even more so, the advertising pages of trade journals as they do the text. Consider THE TIMBERMAN invaluable to every engineer.

JAMES R. THOMPSON,
Mechanical Engineer, Portland, Ore.

For the Mill—Pacific HBG Speed Reducers



EQUIPPED with heat treated Herringbone gears, heat treated shafts, anti-friction roller bearings and with symmetrical, compact assembly in oil and dust proof housings, PACIFIC HBG SPEED REDUCERS offer a positive solution for the most difficult drives encountered in mill service. Furnished in a wide variety of sizes and speed ratios. Descriptive literature on request.



Pacific Tractor Hoists for Logging Service

This unit designed for attachment to the Caterpillar Sixty. Provides line pull in excess of tractor power, high rope speed, high speed power reverse, positive and automatic braking device and easy manipulation from the driver's seat. Sturdy, compact, no excess weight. Complete specifications promptly furnished.

OTHER PACIFIC PRODUCTS: Worm Gear Reducers, Back Gear Drives, Ramsay Silent Chains, Sprockets, Couplings, Micarta Gears, all kinds of gears and gear products to order.

PART V

VENEER PLANTS

A complete and authoritative directory of all veneer producing concerns in the states of Oregon, Washington, California and province of British Columbia, with full details of the principal equipment, the capacities, the personnel and other pertinent data relating to the industry.

Compiled and published by
THE TIMBERMAN
Spalding Bldg., Portland, Ore.

To bear the brunt of Service

Your equipment should be made of *highest grade material* and by experienced hands. We are proud to say that every manufacturer we represent has earned an enviable name for husky equipment. ¶ One good *name* may be sufficient, but another good name *countersigned* makes assurance doubly sure.

PULP AND PAPER MILLS

A complete listing of the pulp and paper mills in Oregon, Washington, California and British Columbia, showing the plant location, class of product, daily capacity, and names of managers and superintendents.

Compiled and published by
THE TIMBERMAN
Spalding Bldg., Portland, Ore.

PULP AND PAPER MILLS

B. C. PULP & PAPER CO., Ltd., Nova Scotia Bank Bldg., Vancouver, B. C.

Plant Address: Port Alice, B. C.

Capacity and Product: 100 tons bleached sulphite pulp.

Personnel: Manager, W. L. Ketchen; managing director, L. Killam.

B. C. PULP & PAPER CO., Ltd., Nova Scotia Bank Bldg., Vancouver, B. C.

Plant Address: Woodfibre, B. C.

Capacity and Product: 120 tons easy bleaching and strong sulphite pulp.

Personnel: Manager, E. P. Brennan.

BERKHEIMER ROOFING CO., Tacoma, Wash.

Plant Address: Tacoma.

Capacity and Product: 6 tons roofing paper.

Personnel: Manager, J. E. Berkheimer.

CALIFORNIA FRUIT WRAPPING MILLS, Pomona, Cal.

Plant Address: Pomona.

Capacity and Product: 20 tons sulphite fruit wrapping.

CALIFORNIA-OREGON PAPER MILLS, Los Angeles, Cal.

Capacity and Product: 40 tons fruit wrapping.

CASCADE PAPER CO., West Tacoma, Wash.

Plant Address: West Tacoma.

Capacity and Product: 25 tons pulp; 50 tons paper; book paper, R. R. writing, mimeograph paper, envelope and label paper.

Personnel: Manager, G. W. Forrester; superintendent, Mr. Hooper; secretary, Arthur N. Drips.

COLUMBIA RIVER PAPER MILLS, Vancouver, Wash.

Plant Address: Vancouver.

Capacity and Product: 30 tons ground wood, 100 tons sulphite pulp, 80 tons paper.

Personnel: Manager, Theodore Osmond.

CROWN-WILLAMETTE PAPER CO., 248 Battery St., San Francisco, Cal.

Plant Address: Camas, Wash.

Capacity and Product: 80 tons kraft, 200 tons sulphite pulp, 300 tons paper.

Personnel: President, Louis Bloch; manager, R. O. Young; plant manager, Lyman Smith.

CROWN-WILLAMETTE PAPER CO., 248 Battery St., San Francisco, Cal.

Plant Address: Floriston, Cal.

Capacity and Product: 35 tons sulphite paper.

Personnel: President, Louis Bloch; manager, H. A. Swafford; superintendent, F. A. Karls.

CROWN-WILLAMETTE PAPER CO., 248 Battery St., San Francisco, Cal.

Plant Address: Lebanon, Ore.

Capacity and Product: 20 tons sulphite paper.

Personnel: President, Louis Bloch; manager, A. W. Olson.

CROWN-WILLAMETTE PAPER CO., 248 Battery St., San Francisco, Cal.

Plant Address: Longview, Wash.

Product: Chipped fir and hemlock for Camas plant.

Personnel: President, Louis Bloch; manager, V. C. Gault.

CROWN-WILLAMETTE PAPER CO., 248 Battery St., San Francisco, Cal.

Plant Address: West Linn, Ore.

Capacity and Product: 375 tons ground wood, 90 tons sulphite pulp, 350 tons paper.

Personnel: President, Louis Bloch; manager, J. E. Haney.

EVERETT PULP & PAPER CO., Everett, Wash.

Plant Address: Everett.

Capacity and Product: 75 tons machine finished book, super-calendered book, varnish label, chemical, railroad manila.

Personnel: President, William Howarth; assistant manager, W. J. Pilz; vice-president and superintendent, A. H. B. Jordan.

FIBREBOARD PRODUCTS, Inc., (Northern Board Mills), 475 Brannan St., San Francisco, Cal.

Plant Address: Sumner, Wash.

Capacity and Product: 30 tons box board.

Personnel: Resident Manager, M. L. Patterson.

FIBREBOARD PRODUCTS, Inc., 475 Brannan St., San Francisco, Cal.

Plant Address: Port Angeles, Wash.

Capacity and Product: 50 tons ground wood, sulphite and board.

Personnel: Manager and superintendent, C. H. Myers.

FIBREBOARD PRODUCTS, Inc., Los Angeles, Stockton, San Francisco and Antioch, Cal.

Capacity and Product: 465 tons board.
Personnel: Manager, N. M. Brisbois.

FIDALGO PULP MANUFACTURING CO., Anacortes, Wash.

Plant Address: Anacortes, Wash.
Capacity and Product: 60 tons unbleached strong sulphite pulp.
Personnel: Manager, C. B. Everitt.

FIR-TEX INSULATING BOARD CO., Pacific Bldg., Portland, Ore.

Plant Address: St. Helens, Ore.
Capacity and Product: 250,000 square feet wood pulp insulating board.
Personnel: President, Hamlin F. McCormick; vice-president, general manager, Arthur A. Millington; secretary, John S. Coke.

GRAYS HARBOR PULP & PAPER CO., Hoquiam, Wash.

Plant Address: Aberdeen.
Capacity and Product: 150 tons sulphite, 50 tons bond paper.
Personnel: Manager (sulphite plant), D. B. Davies; manager (writing paper plant), W. S. Lucey.

WEST COAST ORIENT CO., Yeon Bldg., Portland, Ore.
Specialties: Logs, piling and lumber.
Cable Address: Wecor (Acme).

YAMACHO & COMPANY, Central Bldg., Seattle, Wash.

PART VIII

WOODWORKING PLANTS

A complete listing of the major woodworking plants in the states of California, Oregon, Washington, Idaho, Utah, Montana, Colorado, Arizona, New Mexico, Nevada, South Dakota, and the province of British Columbia.

Compiled and published by
THE TIMBERMAN
Spalding Bldg., Portland, Ore.

THE WORK OF THE WORLD moves faster and smoother because of New Departure Ball Bearings. A type for every kind of service.

SINGLE ROW, a radial load bearing having, under certain conditions, a definite amount of thrust capacity.

DOUBLE ROW, having two rows of balls and ball raceways with angular contact lines to withstand both radial and thrust loads.

RADAX, a bearing capable of taking radial and one-direction thrust loads in combination.

OIL SHIELD TYPE, a single row bearing with special pressed steel shield for the retention of lubricant in inaccessible locations.

N-D-SEAL, a self-sealed, self-lubricated bearing for smaller shaft sizes. Contains sufficient lubricant for several years' operation.

FRONT WHEEL Bearings in pairs, of special heavy construction for the shocks of front wheel application.

MAGNETO TYPE, a small angular contact bearing developed especially for high speeds in small electrical devices.

Application data and engineering consultation service upon request.

The New Departure Manufacturing Company, Bristol, Connecticut. . . . . Engineering and Sales Offices at Detroit, Chicago and San Francisco.

THE TIMBERMAN Has Helped
The Millwork Industry

I can discern in my visits to the Pacific Greater West the very important educational work which has been done in behalf of the millwork business, and can also trace the leading part THE TIMBERMAN has played in this constructive effort. The millwork industry owes much to THE TIMBERMAN.

PART IX

ASSOCIATIONS

* * *

A complete listing of the various associations affiliated with the Lumber Industry of the Pacific Greater West.

* * *

Compiled and published by
THE TIMBERMAN
Spalding Bldg., Portland, Ore.

ASSOCIATIONS

Associated Timber Exporters of B. C., Metropolitan Bldg., Vancouver, B. C.

Box Bureau, Western Pine Manufacturers Association, Yeon Bldg., Portland, Ore.

Box Manufacturers' Section, C. M. A., (B. C. Division), Board of Trade Bldg., Vancouver, B. C.

British Columbia Loggers' Association, 921 Metropolitan Bldg., Vancouver, B. C. Secretary, R. V. Stuart.

British Columbia Lumber & Shingle Manufacturers, Ltd., 917 Metropolitan Bldg., Vancouver, B. C.

Cabinet Manufacturers' Association of California, 546 Call Bldg., San Francisco, Cal.

California Redwood Association, 24 California St., San Francisco, Cal. Secretary, R. F. Hammatt.

California Retail Lumbermen's Association, 112 Market St., San Francisco, Cal.

California White and Sugar Pine Manufacturers' Association, 600 Call Bldg., San Francisco, Cal. Secretary, B. F. Scott.

Canadian Forestry Association (British Columbia Branch Office), Metropolitan Bldg., Vancouver, B. C.

Consolidated Shingle Mills of B. C., Ltd., Metropolitan Bldg., Vancouver, B. C.

Douglas Fir Exploitation & Export Co., 1125 Henry Bldg., Seattle, Wash.

Loggers' Information Association, 1315 L. C. Smith Bldg., Seattle, Wash. Secretary, E. H. Meiklejohn.

Millwork Institute of California, Box 267, Hollywood Station, Los Angeles, Cal. Managing director, H. T. Hidesch.

Millwork Section, C. M. A. (B. C. Division), Board of Trade Bldg., Vancouver, B. C. Manager, Oliver Phillips.

Montana Lumber Manufacturers' Association, Kalispell, Mont. Secretary, Olive Masters.

Mountain Lumber Manufacturers' Association, Nelson, B. C. Secretary, I. R. Poole.

Mountain Manufacturers Sales, Ltd. Secretary, I. R. Poole, Calgary, Alberta.

National-American Wholesale Lumber Association (Branch Office), White Bldg., Seattle, Wash. Manager, Roy A. Dailey.

National Association of Wooden Box Manufacturers, Call Bldg., San Francisco, Cal. Secretary, Rex H. Morehouse.

Northern Alberta and British Columbia Lumbermen's Association, Prince George, B. C. Secretary, R. T. Johnson.

Northern British Columbia Lumbermen's Association, Prince George, B. C. Secretary, R. T. Johnson.

Pacific Coast Hardwood Dealers' Association, 35 Hanford St., Seattle, Wash. Secretary, Roger Sands.

Pacific Logging Congress, 521 Spalding Bldg., Portland, Ore Secretary, A. Whisnant.

Pacific Lumber Inspection Bureau, 5554 Stuart Bldg., Seattle, Wash. Secretary-manager, F. W. Alexander.

Red Cedar Shingle Bureau, Stuart Bldg., Seattle, Wash. Secretary, Arthur Bevan.

Redwood Export Company, 260 California St., San Francisco, Cal. Secretary, J. C. Williams.

Sawmill Engineering Conference, 616 Spalding Bldg., Portland, Ore. President, A. M. Hagen, Bridal Veil, Ore.; Secretary, Geo. F. Cornwall, Portland, Ore.

Timber Holders' Association of B. C., 911 Metropolitan Bldg., Vancouver, B. C. Secretary, E. Martin.

Timber Industries Council of British Columbia, 911 Metropolitan Bldg., Vancouver, B. C.

West Coast Lumber Bureau Millwork Group, White-Henry-Stuart Bldg., Seattle, Wash. Secretary, L. Van Snyders.

West Coast Lumbermen's Association, White - Henry - Stuart Bldg., Seattle, Wash. Secretary - manager, W. B. Greeley.

Western Forestry & Conservation Association, Spalding Bldg., Portland, Ore. Forester, E. T. Allen.

Western Pine Manufacturers Association, Yeon Bldg., Portland, Ore. Secretary, S. V. Fullaway, Jr.

Western Planing Mill and Woodworking Association, 616 Spalding Bldg., Portland, Ore. Secretary, Geo. M. Cornwall.

PART X

PERSONNEL DIRECTORY

An alphabetical listing of managers, sales managers and superintendents of all branches comprising the lumber industry of the Pacific Greater West, including sawmills, logging operations, box factories, etc.

Compiled and published by
THE TIMBERMAN
Spalding Bldg., Portland, Ore.

Key to Abbreviations

AM	Assistant Manager
AS	Assistant Superintendent
BFF	Box Factory Foreman
BFS	Box Factory Superintendent
GS	General Superintendent
HF	Head Filer
KF	Kiln Foreman
KS	Kiln Superintendent
LF	Logging Foreman
LM	Logging Manager
LS	Logging Superintendent
M	Manager
MF	Sawmill Foreman
MM	Master Mechanic
MS	Millwork Superintendent
P	President
PA	Purchasing Agent
PMF	Planing Mill Foreman
PS	Planing Mill Superintendent
RM	Resident Manager
Sec	Secretary
SM	Sales Manager
SMS	Shingle Mill Superintendent
SS	Sawmill Superintendent
TM	Traffic Manager
VP	Vice-President
VS	Veneer Plant Superintendent
YF	Yard Foreman

Machine Superintendent of Large California Woodworking Factory Appreciates THE TIMBERMAN

Each number of THE TIMBERMAN contains a fund of practical and helpful suggestions to men in the woodworking business. If there are any new developments in woodworking machinery THE TIMBERMAN always brings it before its readers. I read every issue with profit and am sure this thought is shared generally by men in the woodworking business.

F. H. TEMPLE,
Supt. Machine Dept., Hammond Lumber Co.,
Samoa, California

Chief Engineer of the Largest Idaho White Pine Mill Appreciates THE TIMBERMAN

It is my conviction, based on more or less constant comparison of trade papers, representing lumber, power and electricity, that THE TIMBERMAN surpasses any other trade journal in the fields referred to. It offers in each issue a complete resume' of every branch in the lumber business, as well as maintaining a wonderfully strong mechanical department. I carefully read and file each issue.

R. T. COWLING,
Chief Engineer Clearwater Timber Co.,
Lewiston, Idaho

PART XII

WOOD PRESERVING PLANTS

Directory of wood preserving plants in the Pacific Greater West, both commercial and private. Listings include pressure and non-pressure installations, together with equipment details and size of cylinders.

Compiled and published by
THE TIMBERMAN
Spalding Bldg., Portland, Ore.

WOOD PRESERVING PLANTS

(PRESSURE PROCESS)

ALBERTA WOOD PRESERVING CO., Calgary, Alberta

Plant Address: Calgary.
Plant Equipment: Six cylinders, diameter 78 in., length 56 ft.

AMERICAN WOOD PIPE CO., Tacoma, Wash.

Plant Address: Tacoma.
Plant Equipment: One cylinder, diameter 72 in., length 40 ft.

ANACONDA COPPER MINING CO., Butte, Mont.

Plant Address: Rocker, Mont.
Plant Equipment: One cylinder, diameter 72 in., length 43 ft.

BRITISH COLUMBIA WOOD PRESERVING CO., Ltd., Vancouver, B. C.

Plant Address: Vancouver.
Plant Equipment: One cylinder, length 70 ft.; 1 cylinder, length 166 ft.

BUNKER HILL & SULLIVAN M. & C. CO., Kellogg, Idaho

Plant Address: Kellogg.
Plant Equipment: One cylinder, diameter 84 in., length 10 ft.

C. B. & Q. R. R. CO., Chicago, Ill.

Plant Address: Sheridan, Wyo.
Plant Equipment: Two cylinders, diameter 74 in., length 132 ft.; 1 cylinder, diameter 73 in., length 132 ft.

COLMAN COMPANY, J. M., Seattle, Wash.

Plant Address: Seattle.
Plant Equipment: Four cylinders, diameter 75 in., length 120 ft.; 1 cylinder, diameter 30 in., length 60 ft.

CONTINENTAL TIE & LUMBER CO., Denver, Colo.

Plant Address: Cimarron, N. M.
Plant Equipment: One cylinder, diameter 84 in., length 87 ft.

DOMINION CREOSOTING CO., Ltd., Vancouver, B. C.

Plant Address: Vancouver.
Plant Equipment: Two cylinders, diameter 90 in., length 100 ft.

McCORMICK LUMBER CO., CHAS. R., Portland, Ore.

Plant Address: St. Helens, Ore.
Plant Equipment: Four cylinders, diameter 74 in., length 136 ft.

NORTHERN PACIFIC RAILROAD CO., St. Paul, Minn.

Plant Address: Paradise, Mont.
Plant Equipment: Two cylinders, diameter 84 in., length 133 ft.

PACIFIC CREOSOTING CO., Seattle, Wash.

Plant Address: Eagle Harbor, Wash.
Plant Equipment: Six cylinders, diameter 72 in., length 125 ft.; 2 cylinders, diameter 72 in., length 120 ft.

SOMERS LUMBER CO., Somers, Mont.

Plant Address: Somers.
Plant Equipment: Two cylinders, diameter 96 in., length 122 ft.

SOUTHERN PACIFIC CO., San Francisco, Cal.

Plant Address: Latham, Ore.
Plant Equipment: Two cylinders, diameter 72 in., length 117 ft.

Plant Address: West Oakland, Cal.
Plant Equipment: One cylinder, diameter 72 in., length 108 ft.; 1 cylinder, diameter 72 in., length 138 ft.; 2 cylinders, diameter 96 in., length 132 ft.

Plant Address: Wilmington, Cal.
Plant Equipment: Two cylinders, diameter 72 in.; length 112 ft.; 2 cylinders, diameter 72 in., length, 132 ft.

Plant Address: Alamogordo, N. M.
Plant Equipment: Two cylinders, diameter 72 in., length 106 ft.

UNION PACIFIC SYSTEM, Omaha, Neb.

Plant Address: The Dalles, Ore.
Plant Equipment: Four cylinders, diameter 72 in., length 114 ft.

Plant Address: Pocatello, Idaho.
Plant Equipment: Three cylinders, diameter 84 in., length 132 ft.

Plant Address: Laramie, Wyo.
Plant Equipment: Two cylinders, diameter 73 in., length 117 ft.; 1 cylinder, diameter 84 in., length 132 ft.

VANCOUVER CREOSOTING CO., Ltd., Vancouver, B. C.

Plant Address: Vancouver.
Plant Equipment: Two cylinders, diameter 84 in., length 135 ft.

WESTERN CEDAR POLE PRESERVERS, Yardley, Wash.

Plant Address: Yardley.
Plant Equipment: One cylinder, diameter 84 in., length 65 ft.

(NON-PRESSURE PROCESS)

ANACONDA COPPER MINING CO., Butte, Mont.
Plant Address: Rocker, Mont.
Plant Equipment: One cylinder 7x9x11½, 1 cylinder 9x11x11.

BAXTER & COMPANY, J. H., San Francisco, Cal.
Plant Address: Alameda, Cal.
Plant Equipment: Two cylinders 7x15x12.

BAXTER & COMPANY, San Francisco, Cal.
Plant Address: Wilmington, Cal.
Plant Equipment: One cylinder 8x12x10, 1 cylinder 8x12x12, 2 cylinders 7x9x10.

BELL LUMBER CO., Minneapolis, Minn.
Plant Address: Newport, Wash.
Plant Equipment: Two cylinders 6 ft. diameter by 20 ft. 4 in., 2 cylinders 10 ft. diameter by 26 ft. 4 in.

CARBOLINEUM WOOD PRESERVING CO., Portland, Ore.
Plant Address: Springfield, Ore.
Plant Equipment: One cylinder 8x16x12, 1 cylinder 8x23x11½, 1 cylinder 3x4x40, 1 cylinder 3x4x25.

CASCADE TIMBER CO., Tacoma, Wash.
Plant Address: Frederickson, Wash.
Plant Equipment: Two cylinders 8x10x22.

CASCADE TIMBER CO., Tacoma, Wash.
Plant Address: Tacoma.
Plant Equipment: Four cylinders 7x10x22, 1 cylinder 3x10x30.

CHAPIN CEDAR CO., Spokane, Wash.
Plant Address: Chapin, Idaho.
Plant Equipment: Three cylinders 10x20 x12.

EGGERS POLE & SUPPLY CO., Spokane, Wash.
Plant Address: Spokane.
Plant Equipment: Two cylinders 10x20x12.

KANIKSU CEDAR CO., Priest River, Idaho
Plant Address: Priest River.
Plant Equipment: Two cylinders 9x18x11.

LINDSEY BROS CO., Spokane, Wash.
Plant Address: Priest River, Idaho.
Plant Equipment: Two cylinders 5 ft. diameter by 11.

LINDSEY BROS CO., Spokane, Wash.
Plant Address: Nakusp, B. C.
Plant Equipment: One cylinder 6 ft. dieter by 12.

McFARLAND, L. D., Sandpoint, Idaho
Plant Address: Sandpoint.
Plant Equipment: One cylinder 9x10x20, 1 cylinder 8x11x22½.

McFARLAND, L. D., Sandpoint, Idaho
Plant Address: Milwaukie, Ore.
Plant Equipment: One cylinder 9x18x10, 3 cylinders 8x22x11.

NATIONAL POLE CO., Escanaba, Mich.
Plant Address: Everett, Wash.
Plant Equipment: Four cylinders 7x10x30, 2 cylinders 7x12x30.

POTLATCH LUMBER CO., Potlatch, Idaho
Plant Address: Bovill, Idaho.
Plant Equipment: Two cylinders 8x12x11.

SAN JOAQUIN LIGHT & POWER CORP., Fresno, Cal.
Plant Address: Fresno.
Plant Equipment: One cylinder 7x15x12½, 1 cylinder 7x24x12½.

SOUTHERN CALIFORNIA EDISON CO., Los Angeles, Cal.
Plant Address: Alhambra, Cal.
Plant Equipment: Two cylinders 7x14x12.

SOUTHERN CALIFORNIA EDISON CO., Los Angeles, Cal.
Plant Address: Visalia, Cal.
Plant Equipment: Two cylinders 8½x 10½x8 ft. 2 in.

SOUTHERN PACIFIC CO., San Francisco, Cal.
Plant Address: West Oakland, Cal.
Plant Equipment: One cylinder 5 ft. diameter by 10 ft.

UNION PACIFIC SYSTEM, Omaha, Neb.
Plant Address: Pocatello, Idaho.
Plant Equipment: One cylinder 7x10x30.

VALENTINE-CLARK CO., Minneapolis, Minn.
Plant Address: Newport, Wash.
Plant Equipment: Two cylinders 18x10x10.

WESTERN CEDAR POLE PRESERVERS, Yardley, Wash.
Plant Address: Sandpoint, Idaho.
Plant Equipment: Two cylinders 8x24x11. 1 cylinder 5 ft. diameter by 11.

WESTERN CEDAR POLE PRESERVERS, Yardley, Wash.
Plant Address: Yardley.
Plant Equipment: Six cylinders 10x22x12.
